Conservation is the protection and wise management of the environment. People practice conservation so that the environment can preserve their needs of all other living things. Without conservation, all the resources necessary for life – air, animals, energy, plants, soil, and water – would be damaged, wasted, or destroyed. Conservation also includes a concern for the quality of the environment, so that people can enjoy living. It means keeping the environment comfortable and an interesting place to live in. A healthy environment includes clean streets and highways, with open spaces in the cities for parks and playgrounds. Ideal surroundings means landscapes free of junk and litter. **They** includes wilderness regions where animals and plants can be safe from destruction by human being.
Question 30. Why do people practice conservation?
A. It is necessary for animals.
